IC INTRACOM DYNAMIC IDEAS FOR COMPUTERS

MANHATTAN® FINEST QUALITY COMPUTER PRODUCTS

INTELLINET ACTIVE NETWORKING

IC INTRACOM - Proud Manufacturer and Marketer of MANHATTAN® and INTELLINET ACTIVE NETWORKING®

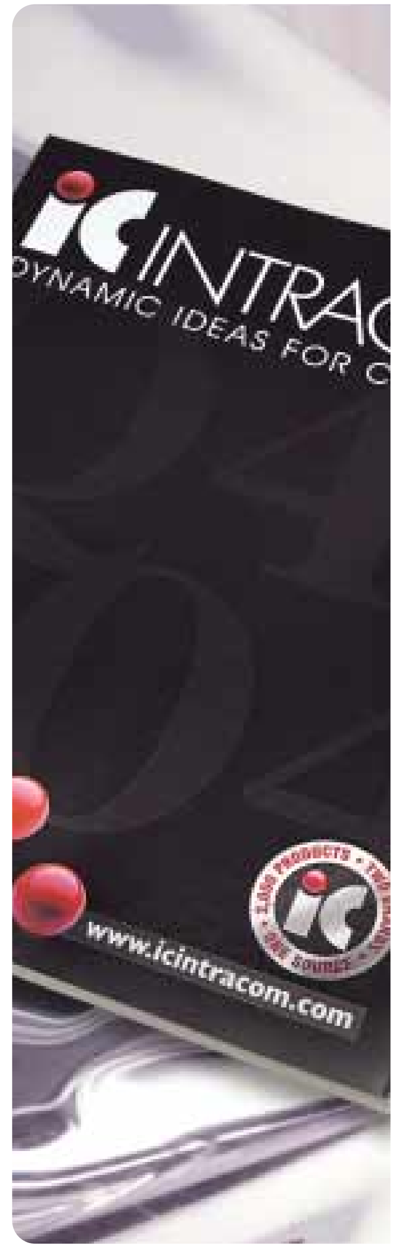

IC INTRACOM® specializes in providing a complete range of PC components and networking equipment to distributors worldwide. The initial idea behind founding IC INTRACOM back in 1987 is still valid today, and will be for many years to come: combine intimate knowledge of the requirements of the consumer market with an in-depth understanding of Far East manufacturing.

This unique business model allows for rapid response to changing market demands through company-owned and ISO-certified factories and R&D departments located in Asia, the USA and Europe. Direct sales out of Asia are processed by IC INTRACOM's experienced 50-people-strong export division located in Taipei, Taiwan.

Once a product is designed, manufactured and has passed stringent quality control procedures, IC INTRACOM Asia ships to our customers all around the globe. Should you require faster delivery, or your business is not quite ready to receive direct shipments from Asia, we also maintain significant inventories at our Master Distribution Centers located in Argentina, Belgium, Germany, Italy, Mexico, Poland, Spain, Turkey, the United Kingdom, Uruguay and the USA. So wherever you are, IC INTRACOM products are always nearby, ready to deliver.

Please let us know how we can help you meet your business goals. We will always do our very best to ensure your continued success.

Why IC INTRACOM?

Since its beginning in 1987, IC INTRACOM has successfully employed a unique business model to meet the needs of independent PC retailers, VARs and systems integrators worldwide. The key to our success is a time-tested seven-point value proposition that IC INTRACOM delivers to each and every customer:

1. Dedicated to the Independent Reseller

More than just top quality product, we cater exclusively to the needs of the independent PC reseller and system integrator. Our 2,000+ products are not sold through mass merchandisers, giving you a truly unique and proprietary product offering.

2. High Margins

We do not manufacture PCs or software. Instead, our focus is on ALL of the other computer-related products the reseller depends on to make a profit. When you adopt the IC INTRACOM concept, you will achieve an overall gross profit of at least 40%

3. Expert Selection

Every item in our line has been carefully chosen to meet the needs of both you and your customers. We've already done all of the product and market research for you, eliminating the guesswork in deciding what and how much to stock. This saves valuable time and money freeing you to concentrate on other critical aspects of your business.

4. Attractive Retail Packaging

Award-winning designs deliver maximum impact at the point of purchase, resulting in increased sales and a professional retail environment. At IC INTRACOM, we do more than make quality products. Our packaging staff knows what stands out, the information that is most important to end users, and the types of packages that have the most appeal. That experience goes to work for each IC INTRACOM reseller every time a customer walks through the door. Our years of expertise results in your immediate success! Uniform design standards lend a consistency and perception of value not only to our products, but also to our customers' operations. IC INTRACOM goes the extra mile to develop the industry's most compelling, visually appealing packaging so you can present your products with pride.

The Ultimate Success of Any Computer Reseller Operation Depends on Three Simple Factors!

HARDWARE
A LOW MARGIN opportunity and the smallest part of retail inventory.

SOFTWARE
A MEDIUM MARGIN opportunity and the smaller part of retail inventory.

IC INTRACOM PRODUCTS
THE HIGHEST MARGIN opportunity and the largest part of retail inventory.

5. Powerful Brand Recognition

MANHATTAN and INTELLINET ACTIVE NETWORKING, two well-known and respected names, support more than 2,000 different items, far more than anyone in the industry.

MANHATTAN® FINEST QUALITY COMPUTER PRODUCTS

Everything You Need To Put The Profit Back Into Your PC Business!™

6. Experienced Technical Support

A highly trained team of professionals is standing by, ready to assist you both before and after the sale. In addition, a comprehensive Internet support site, containing the latest product drivers, firmware updates, and a wealth of other technical information, is available 24 hours a day, seven days a week. We even go a step further, offering two websites, **www.manhattan-support.com** and **www.intellinet-network.com**, to provide a direct avenue of support for your customers. These sites include drivers, a list of Hot Topics, FAQs and a form for requesting technical support directly from us.

7. Lifetime Warranty

Company owned, ISO 9000 certified factories and strict manufacturing standards assure the highest quality in MANHATTAN and INTELLINET ACTIVE NETWORKING product. All items carry a full lifetime warranty, the strongest quality commitment anyone can make. We proudly stand behind our products and guarantee you can do the same.

International Trade, Consulting & Manufacturing

Bridging the Gap Between Two Worlds

With these changing times, the most successful companies look ahead and continuously adjust the way they do business. Developing an expert relationship with Asia is often a key strategy for improving profitability.

Regardless of product or industry, IC INTRACOM builds bridges between the industrial advantages of the Far East and the market needs of the Western world. Our strategy is based on establishing and cultivating partnerships between mid-sized domestic companies and Asian manufacturers.

We are firmly established in the Asian marketplace, and many of our customers are benefiting from that experience. You can too, if you plan to manufacture in the Far East, need components for your domestic production or intend to trade products. Just choose the program that provides the level of support you require.

PROGRAM I

Consulting and Negotiation

On your behalf, we investigate if the product you need is already available, or if it can be manufactured for you. Quite often, we suggest choosing alternative products and/or business opportunities.

IC INTRACOM builds bridges between the industrial advantages of the Far East and the market needs of the Western world. Our strategy is based on establishing and cultivating partnerships between domestic companies and Asian manufacturers.

PROGRAM II

Full Service

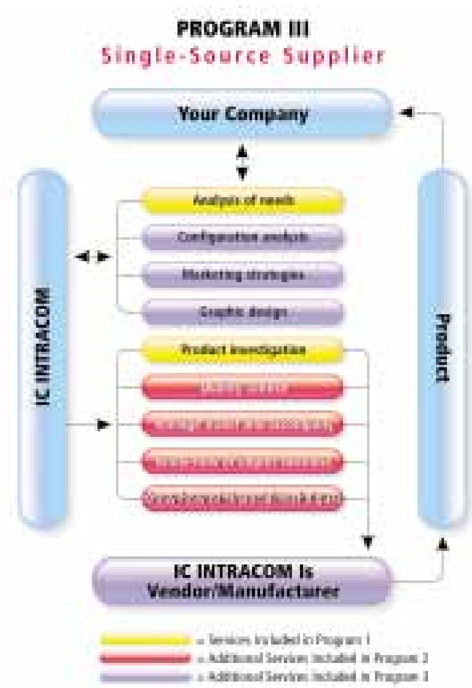

More than just negotiation, you need assistance with quality control, administrative procedures, shipping and dealing with customs authorities. IC INTRACOM provides training in import business and financing. We manage your visits to the Far East, and our trained personnel can even accompany you if requested.

PROGRAM III

Single-Source Supplier

Your company utilizes IC INTRACOM's fully developed company infrastructure, which is adapted to the specific needs of the Far East markets, including our own manufacturing facilities. IC INTRACOM manufactures on your behalf and follows your standards.

Shipping and Storage

Also, we supply in-between storage in Asia, consolidate shipping, provide storage areas in Europe and the Americas and, in addition, handle decentralized, direct shipping to your customers.

Communication

Regardless of the program you select, IC INTRACOM offers ease of communication, availability 24/7, and professional contacts in Asia with fluency in English, German, Spanish, Italian and Mandarin.

Worldwide Manufacturer of OEM Cable

All Custom Cables are designed and built in company-owned, ISO certified and UL approved manufacturing plants located in both the United States and China. More than 1,000 highly trained employees stand behind our Lifetime Guarantee of quality workmanship and materials.

We specialize in helping you arrive at the optimum cable design for your application while keeping costs within budget. CAD drawings and critical path management reports keep you informed during every phase of the project including design, tooling, prototype, first article acceptance and full scale production. Our high-volume production capabilities ensure meeting your delivery dates on time and on budget.

An extensive inventory of over 700 molds enable us to produce all industry standard cables as well as scores of custom designs. Plus, we specialize in quick tool turnaround at extremely competitive prices. In fact, we often ship first article samples directly from our USA manufacturing plant in as little as four business days from design approval.

We have the experience and expertise to meet and exceed any OEM cable requirement. Take advantage by allowing us the opportunity to quote your next custom cable order.
